Subject: Ross Bridges

Dear Town Council,

I am writing in support of Ross Bridges' application for a Use Permit to operate in our town. Ross Bridges has been instrumental in helping my child overcome several learning challenges over the past few years.

As a parent with young children, I know how difficult school can be especially for children who fell behind during the pandemic. The teachers at Ross Bridges are professionals with 15+ years of experience working in public education. Our town is fortunate to have these incredible resources available to our children. Our town needs more businesses like Ross Bridges not less. I humbly urge you to approve Ross Bridge's Use Permit application so they can continue to do the great work they are doing for our early learners. I know it will pay dividends down the road for our children and the broader community.

Sincerely,

Meghan
