The trainee will understand the importance of the following critical areas of driving instruction and be able to explain how ongoing exposure and training in each area can benefit the trainee in the application of SAFE driving:

- A. Use of Law Enforcement Driving Simulators in addition to Emergency Vehicle Operations Courses in ongoing and in-service training
- B. Speeds officers are expected to encounter in routine and emergency driving
- C. Night driving
- D. Use of interference vehicle(s) to simulate actual roadway conditions

5.3.02

**5.3.03 Potential Risks Related to Inappropriate Driving**

The trainee will be made aware that routine and emergency patrol driving are among the most critically serious and potentially dangerous functions of a law enforcement officer. There is a real and ever present risk of injury or death to officers and members of the public when an officer drives in a manner unsafe for conditions, beyond their capabilities, or beyond the capabilities of their patrol vehicle.

Between 2003 and 2010, more officers were injured or killed in traffic accidents than in assaults. In addition, severe criminal and/or civil sanctions can be imposed on the law enforcement officer and/or organization as a result of unsafe vehicle operation.

The trainee will be made aware of these facts and will relate the importance of SAFE driving to the FTO. The trainee will continually demonstrate SAFE driving practices throughout the FTO program in preparation for continued SAFE driving throughout his/her law enforcement career.

5.3.06 Additional References / Agency-Specific Information:

**5.4 USE OF SEATBELTS**

**5.4.01 Seatbelt Use during Routine and Emergency Driving Conditions and Tactical Seatbelt Removal**

The trainee will review agency policy regarding the use of seatbelts while on patrol. The trainee will be made aware of the fact that use of the seatbelt in both routine and emergency driving dramatically increases the chance of survival and decreases the potential for injury during crash.

Tactical seatbelt removal (removing the seatbelt as the patrol vehicle slows just prior to safely coming to a stop, so the officer can quickly exit the vehicle) will be discussed by the FTO if such practice is allowed by agency policy. If agency policy allows such practice, the trainee will demonstrate when to appropriately use a tactical removal of the seatbelt.

The FTO will continually monitor seatbelt use (and tactical removal of the seatbelt when appropriate) to ensure that the trainee is habitually wearing the seatbelt while on patrol, and is only removing it during a safe and opportune time, given the situation at hand.

The trainee shall identify and explain the following elements of probable cause as those required to make a valid arrest: |                             |      |                                |      |   |  |      |   |

**9.2.03 Probable Cause Related to Felonies and Misdemeanor Arrests**

The trainee shall identify and explain how probable cause is used in arrests for felonies and misdemeanors:

- A. For a felony: An officer may arrest with a warrant, or without a warrant, if the officer has probable cause to believe the person to be arrested committed the felony, regardless of whether or not the felony was committed in the officer’s presence.
- B. For a misdemeanor: An officer may arrest with a warrant, or without a warrant, if the officer has probable cause to believe the misdemeanor was committed in the officer’s presence.
- C. For a misdemeanor: See California Penal Code and California Peace Officers Legal Sourcebook for situations where officers are allowed by statute to make warrantless arrests for certain enumerated misdemeanors, even though the misdemeanors were not committed in the officer’s presence.
- D. For a private person’s arrest: See California Penal Code and California Peace Officers Legal Sourcebook for statutes on accepting this type of arrest.

**13.24.11 Riot Control Incidents**

The trainee will understand and be able to discuss the term “riot control” as it refers to the techniques used by peace officers in response to an escalation of crowd violence where reasonable force may be necessary to prevent additional violence, injuries, death, or the destruction of property.

Although law enforcement does not necessarily plan on riots erupting in all crowd situations, riot control is generally a contingency of a well-prepared crowd management plan. A discussion of riot control techniques will minimally include the following:

- A. Specific operational tactics and basic formations
- B. Additional resources, equipment, and personnel that may be required for a response
- C. Assignment of specific tasks
- D. Agency policies and procedures for mounting a quick, effective response to violence or violations of the law
- E. Dispersal orders
- F. Clarity on agency policies and guidelines for the use of less-lethal force (i.e. chemical agents, baton, beanbag rounds, TASER, etc.)
- G. Clarity on the agency policy for the use of deadly force
