Subject: San Anselmo Flood Control Project

Richard,

I appreciate all of your efforts helping me understand and work my way through the San Anselmo Flood Control Project. As a layperson, it can be overwhelming. Your knowledge of FEMA regulations and the way you can put it in easy to understand terms has been a big help to me - knowing, for example, that the space under my house can't just be flooded without mitigation.

As we continue moving through this, I am looking forward to your advocacy on behalf of myself and all the other Ross residents being negatively impacted by this project.

I don't want my home flooded and look to you as a restraining factor against the county.

Thanks!
