Subject: [EXTERNAL] Ross Doctors Support Reopening the Firehouse

Dear Town Council,

We, the undersigned physicians and nurses in Ross, urge you to find a way to restore the Ross fire station. Closing the fire station has resulted in unacceptably long emergency medical response times. Please don't wait until someone dies to address this. We need a fire engine, staffed with first responders, to arrive quickly. The ambulance can't compensate for the loss of a fire engine; response times are too long.

Sincerely,
Chris Baker, M.D.
