Subject: [EXTERNAL] Firehouse

I have just read the op ed by Mr Salter in the IJ. I agree that more fire protection is beneficial for all. I hope that you get your firehouse back. I would recommend you to look at possible alternative locations when you are in the planning stages. That location is extremely close to Kentfield Station 17. Also, if better fire protection for you and your neighbors is the goal, I would also recommend you to look into consolidating fire services with your neighboring departments, including Corte Madera, Larkspur, Kentfield and Southern Marin. Not an easy task, but it would definitely benefit your firefighters, your town, and your constituents. It would make a positive regional impact in my opinion. Truly best of luck in your endeavors.

Sincerely

Dan Martino
